

Fred Lehmann, Mokena Civic Leader Dies

Fred G. Lehmann, 69, one of the civic leaders and a highly respected resident of Mokena, died last Thursday evening in the American Nursing Home at Joliet.

Prior to entry at the home several weeks ago he had been a patient at Silver Cross Hospital. He was hospitalized because he had suffered a stroke.

A native of Chicago, where he was born Sept. 23, 1899, Mr. Lehmann was graduated from the University of Illinois in 1922, where he majored in chemistry. He obtained his masters degree in that science in 1926.

Meanwhile he had gone to work for Commonwealth Edison in his chosen field and continued in the employ of that company until about seven years ago when he suffer-

ed a slight stroke. It was about that time that the company moved him to a location in Chicago and not feeling able to combat traffic he retired after 35 years with the utility firm.

Mr. Lehmann had resided in Mokena 20 years and all that time took an active interest in community affairs. He was a charter member of the Mokena Lions Club, which was formed in 1952, and served as its president in 1957-58. He then became secretary, a post he held up to the time of his final illness.

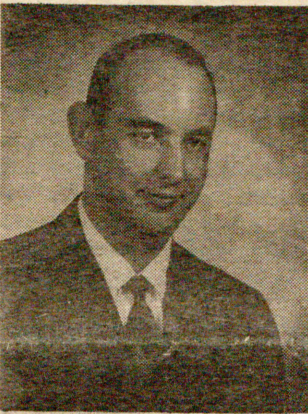

He also served as executive director of the Mokena Chamber of Commerce when it maintained an office in the village several years ago.

For at least a year prior to his suffering a stroke last

December Mr. Lehmann covered Mokena village board meetings for the Joliet Herald-News.

He was a member of the Society of Friends so there was no formal funeral service, but relatives received friends last Saturday from 3 to 10 p.m. at the Hirsch Memorial chapel in Tinley Park.

Surviving is his wife, Marcella, who was a teacher at the Mokena Public School and now is school librarian, one daughter Mrs. Betty Nissen of Arlington, Va., three sons, Fritz of Vancouver, B.C., Jerry of Pine Plains, N.Y. and Donald of Mokena; and three grandchildren.

GERALD EISENBRANDT, son of Mr. and Mrs. Arthur Eisenbrandt, Frankfort, was awarded his doctor of philosophy degree in electrical engineering at the mid-term commencement of the Illinois Institute of Technology, Chicago. He is a graduate of Lincoln-Way High School and received his bachelor and master degrees in science at IIT. In the course of his graduate work he was the recipient of a National Defense and Education Act fellowship and a special IIT fellowship and for one semester was employed as a part-time instructor. Chapman Will Retire As Head of L-W High School

SUPT. CHAPMAN

Following a long and most successful career as a school-teacher, coach, counselor, administrator, and educator, A Hunter Chapman, superintendent of Lincoln-Way High School, has announced his retirement. Chapman officially submitted his resignation to the board of education last month, but formal acceptance was not approved until the March 8, meeting. The resignation becomes effective July 31, 1969.

The distinguished record of Mr. Chapman's accomplishments includes: appointment to the Legislative Commission and presently vice-president, board of directors, of the Illinois High School Association; the chairmanship of several committees of the Illinois Association of School Administrators; president of the Southwest Suburban Conference; member of the executive committee of the Chicago Suburban Conferences, and state and national recognition attained by Lincoln-Way High School for its forward moving programs.

Mr. Chapman is a member active in the work of the Illinois Education Association, the National Education Association, the Illinois Council in Community School, the Superintendents Round Table of Northern Illinois, the Illinois Secondary School Principals Association, the National Association of Secondary School Principals, the National School Public Relations Association, also the Masonic fraternity, the Elks club, and the New Lenox Methodist Church.

Under Mr. Chapman's guidance, leadership, and very capable administration, the outstanding features of Lincoln-Way High School are its approach to student

government, a student supervised honor study-hall system, and a good outlook and up-to-date picture of educational problems. There are good working relationships among administrators, teachers, and pupils. There is a good articulation program with the public and Parochial elementary schools that send their graduates to Lincoln-Way. There is an excellent central library with a fine selection of materials available to students. The teacher - pupil ratio is low. There is good planning and supervision, a friendly atmosphere with outstanding discipline out of respect, and excellent rapport among students, staff and faculty.

Many innovations in team-teaching, independent study, humanities study, adult education classes, community service, and Special Education for remedial measures and reading skills have been put into action at Lincoln-Way. Vocational agriculture is a unique feature of the regular curriculum. This is one of the largest programs of its kind offered in the Midwest, with both boys and girls enrolled. Similarly great steps forward have been made in other vocational education and on-the-job training. The money of the district has been spent wisely

in the development of a quality educational program.

Mr. Chapman came to Lincoln-Way in the fall of 1952 when the new District 210 was formed. As its first superintendent, his respected leadership contributed in an important way to the work of the Citizens Committee with University of Illinois educators leading to policies, recommendations, implementation and formation of a "model" consolidated high school. During the past seventeen years Mr. Chapman has seen Lincoln-Way High School grow from an original enrollment of 290 students to the present 1,346.

Mr. Chapman is a native of central Illinois. He received his bachelor's degree from Shurtleff College in Alton, Ill. and later his master's degree from the University of Illinois. He has also taken selected course study at the University of Kansas, the University of Wisconsin, the University of Oregon, and the University of Chicago. During his undergraduate days he was also winner of nine college letters in athletics including football, basketball, baseball, and track, and he was captain of his college football team.

His first position was as a coach and teacher of social science, as well as assistant superintendent of a unit school district at Nashville, Ill. From there he moved to the Winchester, (Illinois) High School system where he became principal and then superintendent, and where in the words of an old friend he, "produced some great teams and made thousands of friends." Between 1948 and 1952, he served as chief administrator of the Arenzville - Chapin - Concord - Merdosia Community Unit District where he again had an outstanding record of accomplishment. He then came to Lincoln-Way where he has earned new records and honors in educational and school affairs, and the sincere loyalty of a great many friends, teachers, administrators, and educators.

Mr. Chapman and his wife, Vera, are residents of New Lenox. They have a son, A. Hunter, Jr., who is in Montgomery Ward's management training program; a daughter, Clara, who is a medical technologist at St. Luke's Hospital, Denver, and a student in the University of Colorado.

The distinguished work of A. Hunter Chapman, building, administering, and guiding Lincoln-Way High School from the beginning, stands as a living memorial and standard of excellence. It is a superior accomplishment.

Mr. and Mrs. Chapman have no immediate plans for the future other than an extended world-wide trip.

Build School Addn. Thru Federal Grant

A government grant of \$73,575 has been allowed to the New Lenox grade school district, No. 122, by the federal government to build an addition to Oakview School.

The district obtained the grant under a federal law because of the marked increase in enrollment of pupils whose parents work on federal installations in

the area -- like the arsenal.

Supt. Arnold Tyler submitted the request in 1967. The projects, for which the grant was made, provides for 2,763 square feet of space to give additional central office facilities, an addition to the faculty room, and an addition to the school library.

Have You Entered Moon Contest?

A two-weeks vacation for two anywhere on Earth awaits the person who selects most closely the precise moment when the first American astronaut steps onto the Moon's surface.

Second prize is two weeks at Cape Kennedy during a period that includes a manned-space launching.

First prize for persons entering the local contest is a World Book Encyclopedia set. Five World Book 1969 Year Books will be awarded to the next five best selections.

CUT YOUR OWN TAXES

It Pays to Recall Your 1968 Illnesses

Editor's note: It is time to think about the income tax again. This is another of a series reviewing the regulations, with emphasis on taking advantage of all exclusions and deductions legally due you.

By Ray DeCrane

Sometimes it pays to be sick.

At income tax filing time, to compensate in part, you can receive real savings on your tax return if you were sick and out of work during 1968, if everything falls right for you.

Called the sick pay exclusion, the tax-saver is far better than the usual deduction on your return.

A so-called Page 1 reduction against gross income, it still gives you the option of itemizing deductions after it is claimed or settling for one of the two optional methods of claiming deductions.

It has an additional built-in bonus because it is a reduction against gross income. It reduces the adjusted gross income figure, the base upon which the 3 per cent medical deduction is calculated. This means it increases the medical deduction to which you might be entitled.

To be eligible for the sick pay exclusion you must have been out of work either because of sickness or injury during some part of 1968. In addition you must have been paid by your employer during this period of enforced absence.

The extent of your sick pay exclusion, if any, is determined by how long you were out of work and the percentage of normal pay you received during this time.

If you received more than 75 per cent of your regular pay, the sick pay exclusion

begins after a 30-day waiting period. After the 30-day period you may exclude your full pay up to a weekly maximum of \$100.

If you received 75 per cent or less of your regular pay your waiting period is reduced to only seven calendar days. Thereafter the exclusion is taken on the basis of the actual pay received, or \$75 a week, whichever is lesser.

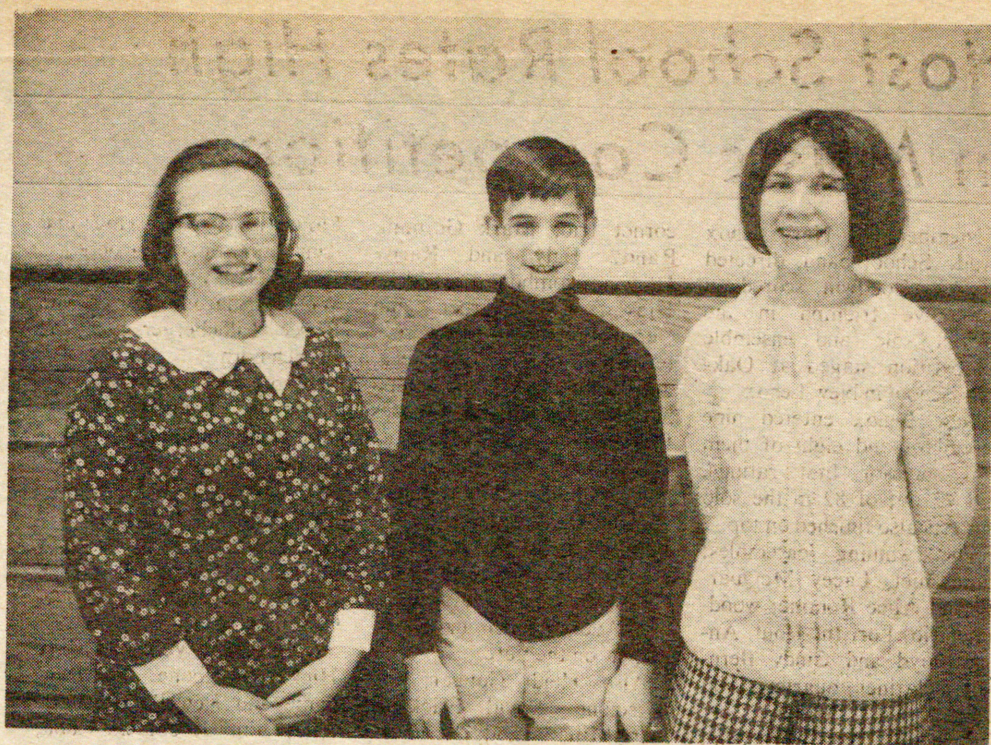

There is still a further tax break for the person who receives 75 per cent or less than normal pay. If he spent at least one day in the hospital during any part of his treatment for illness or injury, his credit begins from the very first day of such enforced absence.

After the first 30 calendar days this worker, too, has his exclusion stepped up to the weekly maximum of \$100 or actual pay, whichever is lesser.

The rules may be complicated, but the tax saving can be substantial for the person who is willing to take his time, count the days carefully on the calendar and calculate his exclusion.

The "Cut Your Own Taxes" book, available through this newspaper, gives further examples illustrating the benefits of the sick pay exclusion.

NEXT: Special handling on dividends.

Will Discuss School Bond Issue March 24

There will be a meeting Monday night, March 24, at the Frankfort Grade School, Oregon and Hickory St., for discussion of the building bond referendum slated for March 29.

All persons interested are invited to attend. The polls for the referendum will be open from 12 noon to 7 p.m. The board is asking authority to issue \$415,000 of bonds for an addition to Chelsea School and some remodeling at Frankfort Grade.

The public meeting at which the bond issue will be

discussed will be held in the school gymnasium.

The Frankfort board of education has been discussing the remodeling of Frankfort Grade with the architectural firm of Norton and Hall. The work is necessitated as a result of a safety survey made in compliance with state law.

The board also adopted its calendar for the 1969-70 school year. The term will begin Sept. 2 and end June 10. The Sept. 2 date is when pupils will attend their first classes.

Registration and other pre-

liminaries will be disposed of several days earlier.

A leak in the roof at Chelsea School has been repaired thru cooperation of the bonding company. The board will hold its next meeting in the school library the evening of April 7.

Voters who will not be in town the date of the referendum may obtain absentee ballots at the school office, Hickory and Oregon Sts. March 24 is the last day to apply for an absentee ballot by mail and March 26 is the last day to apply in person.

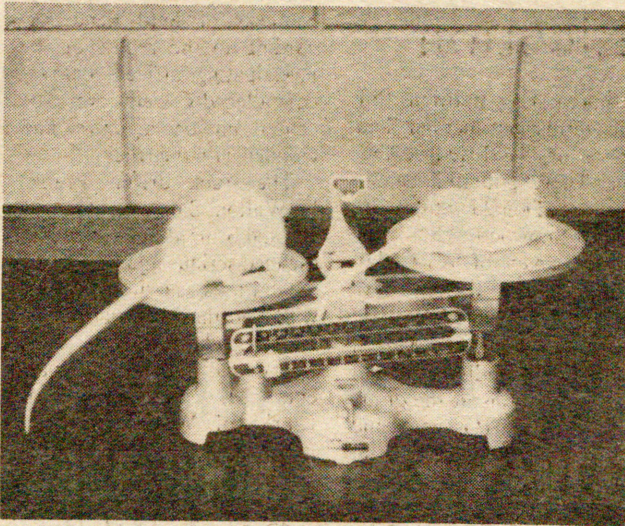

Prove Nutritional Value Of Type A School Lunch

Is a peanut butter and jelly sandwich and carbonated beverage as good as the Type A school lunch?

Two white rats at Willowcrest School during the past several weeks have shown there is a big difference in the nutritional value of the two lunches.

The young rat fed the school lunch is good looking; his fur is white and smooth, his eyes are bright, his tail is long, and he walks with all the vigor of any healthy young animal -- or child. The second rat, fed the sandwich and soda pop, is smaller than his brother, although they are the same age. His fur is rough, his tail is short, he lacks coloring in his ears and tail and he is nervous and irritable.

Usually carried on in experimental laboratories, an experiment like this can be done by the seventh and eighth grade science students

in Thomas Hull's classroom to show how food affects the human body, for the digestive system of a rat is very similar to that of the human. A six-week-old rat corres-

ponds in age to a 3 1/2-year old child.

In the school lunch program, the menu must meet standards set by the United States Department of Agriculture to be designated as "Type A" lunch. The menu must contain at least: (1) one-half pint of fluid whole milk as a beverage; (2) two ounces of lean meat, poultry, or fish or cheese; or one egg; or one-half cup of cooked dry beans or peas; or four tablespoons of peanut butter; (3) a three-fourth cup of raw, cooked or canned vegetables and/or fruits; (4) one slice of whole-grain or enriched bread.

Lincoln-Way Loses Regional

It was a sad crew in the Lincoln-Way dressing room after their regional basketball tourney encounter with Joliet Catholic High.

Coach Tom Lewis, the players, the student managers, parents and fans were all sad over the fact that the Knights finished their regional tilt at Lockport West on the short end of 79-77 score but they could take solace from the fact that they had almost pulled one of the big upsets of the season.

Catholic High was the odds-on favorite to win and at the half it looked like a sure thing. Catholic High led 45 to 36 at the half and 61 to 53 at the end of the third frame.

But the knights were far from dead. They came to life with a whoosh in the final quarter and tallied 24 points to their opponents 18.

Lincoln-Way shooters kept whittling away at Catholic High's margin until with a minute and 20-seconds to go it had been erased and the Knights were on-top 77 to 76. The Catholic High cashed in on three free throws to make the count 79 to 77. In the last fraction of a second of play John Minger turned loose a throw from about mid court that just missed sending the game into overtime.

Altho Lincoln-Way didn't win, Coach Lewis was

pleased with the performance of his team and next year he should be a good one.

Young Terry Ryan, of Mokena, who played with that school's team last year, is a freshman at Lincoln-Way who saw tourney service as a freshman. He scored on five out of eight field goal chances, and six out of eight tries from the free throw line for a total of 16 points.

Harold Webb was high man for the evening with 26 points. Palka joined Ryan with 16, Istel had 10, Otto 6 and Been 3.

Open Letter from the HIRSCHS'

Dear friends,

Neighbors and friends are quick to offer their help in times of bereavement. We hear it repeatedly, "Is there anything we can do?"

Occasionally there is something which the bereaved would like a friend or neighbor to help with, and we pass on these requests.

This spirit of helpfulness is commendable and is always appreciated.

Respectfully,

Timothy A. Presler

(Next time, get draft-free, even, electric heat.)

There's something you really ought to know about flame heating systems: they cause drafts.

Air is consumed in the burning process. So, a draft is created that draws in dirty, cold air from outside.

Electric heat won't do that. Because there's no flame.

Which is why electric heat, and only electric heat, can promise you even, controlled heat that's free from drafts. So if you get that chilly, creepy feeling around your ankles on days when it's cold outside—well, we cannot tell a lie.

Your flame-system did it.
